Dear Mr Constable

Thank you for your letter dated 10 March 2006, following the Community Council meeting of the 8 March, regarding closure of Kinneil Museum and the future of its exhibits.

As you may or not be aware it was published, in its entirety, alongside of the report of the Community Council at which you made the statements it refers.

However, it is not regarded that any retraction is either required or necessary as there is a little confusion as to what these 'untruths' are.

Both in the interests of local citizens and of openness and transparency if you could be more specific and highlight what you regard as 'untruths' a full and proper retraction would certainly be considered.

I look forward to your considered reply.

Yours sincerely

R A Willox
